Welcome to ARIYO BATTERIES At ARIYO BATTERIES, we specialize in high-quality lithium-ion battery solutions designed to power the future. Our commitment to sustainability and innovation drives us to deliver reliable products for electric vehicles, solar energy systems, and industrial applications.

About Us

Who We Are ARIYO BATTERIES is a pioneer in the battery manufacturing sector, focusing on A-grade lithium-ion cells (LFP and NMC). With years of expertise, we provide customized energy solutions tailored to meet the diverse needs of our clients. Our mission is to foster sustainable energy practices and contribute to a cleaner, greener world.

Products & Services

Our Offerings

- **Lithium-ion Battery Packs:** Efficient and dependable energy storage solutions for various applications.
- **Customization Options:** Tailored battery solutions designed to meet specific requirements in size, capacity, and performance.
- **Battery Management Systems (BMS):** Advanced BMS integrated into our products to ensure optimal performance and safety.

Sustainability & Quality

Our Commitment to Excellence We are dedicated to sustainable manufacturing practices. Our batteries are produced using eco-friendly materials and undergo rigorous testing to comply with international quality standards. We are proud holders of certifications such as ISO 9001 and CE, ensuring our products are safe and reliable.

Industries Served

Powering Diverse Sectors

- **Electric Vehicles (EVs):** High-performance batteries for electric bikes, scooters, and cars.
- **Solar Energy Solutions:** Efficient energy storage for solar appliances and systems.
- **Industrial Applications:** Durable batteries for UPS, inverters, and agricultural equipment.

Client Testimonials

What Our Customers Say

"ARIYO BATTERIES provided customized solutions that significantly improved our operational efficiency."

— [Client Name, Company]

"The quality and performance of their batteries are unparalleled. Highly recommend!"

— [Client Name, Company]
